Re: Bud Johnson Enterprises Ltd.

To Whom It May Concern

As the Chief Executive Officer responsible for the overall leadership and management of the Community Living Society (CLS), I am pleased to provide this letter of reference for Bud Johnson Enterprises Ltd.

Since 2010, Bud has completed hundreds of work orders for Community Living Society in his capacity as an independent contractor. The work orders have included a wide range of projects such as building custom-made balconies, fences, decks, and wheelchair ramps. He has also painted homes, renovated kitchens and bathrooms, provided emergency restoration services, and made countless structural repairs to CLS residential care facilities, apartment units, and leased spaces.

Bud has distinguished himself as a preferred contractor with the quality of his professionalism. For example, his integrity is exemplified by his willingness to stand by the quality of his work; he takes pride in knowing and following the best practices of his profession; he demonstrates flexibility in being able to move from one ongoing project to another based on the needs of CLS; and, he has proven his reliability in the successful completion of hundreds of projects for CLS over the last decade.

The quality of his character has also been a crucial factory in Bud's longevity working for CLS as he has demonstrated an ability to maintain a positive working relationship with numerous CLS staff members and supported individuals who represent a vast spectrum of diversity as he unwaveringly treats others with respect and dignity. Bud's professionalism and treatment of others has been an ideal fit with the four organizational values of CLS which are respect, integrity, accountability, and community.

Considering the formentioned qualities, I can confidently recommend Bud for any contractor projects that he believes himself capable of completing to his usual high standards.

Sincerely,

Ross Chilton
Chief Executive Officer
Community Living Society
